EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Specification, after the title, insert;

--This application is a 371 of PCT/CH03/00015, filed on January 14th, 2003. --

Allowable Subject Matter

1. Claims 2-17 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Applicant's first argument with respect to WO 99/61262 not being prior art because it was commonly owned, this argument is not persuasive because WO 99/61262 is prior art under 35 USC 102(b) (because it was published more than a year before the effective filing date). Only art applied under 35 USC 102(e), (f) or (g) can be disqualified as a reference under common ownership.

However, applicant's arguments, filed 1/18/2006, with respect to the structural differences between WO 99/61262 and the instant application are persuasive. The prior art of record provides no motivation for the addition of a plate featuring a recess to the WO 99/61262 reference. Luhman discloses a structure that is superficially similar to a

bar and a plate with a recess, but lacks any connection to the claimed pivoting beams and thus functions differently.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
